

HIMCLOTHIERS

BRAND GUIDELINE

BRAND OVERVIEW

Himclothiers is a premium menswear brand dedicated to creating timeless fashion for men who value confidence, sophistication, and quality. Our collections blend modern design with classic tailoring to deliver clothing that is elegant, versatile, and built to last.

Every garment is crafted with attention to detail, using quality materials and refined craftsmanship to ensure exceptional comfort and style. Whether for business, formal occasions, or everyday wear, Himclothiers helps men make a confident statement through effortless elegance.

The brand is built on the belief that great style is more than appearance—it's a reflection of character, ambition, and self-confidence. By combining minimalist aesthetics with premium quality, Himclothiers creates wardrobe essentials that remain relevant beyond seasonal trends.

With a commitment to excellence, authenticity, and timeless design, Himclothiers aims to become a trusted destination for modern gentlemen seeking fashion that embodies confidence, class, and individuality.

Brand Essence: Clean • Modern • Timeless

BRAND STORY

Himclothiers was created from the belief that every man deserves clothing that reflects confidence, ambition, and sophistication.

We saw a gap in fashion—fast trends, low quality, and a lack of pieces that truly stand the test of time. That inspired us to build a brand that focuses on creating premium essentials that are stylish, versatile, and made to last.

Rather than following fashion trends, we design with purpose. Each collection is carefully crafted to combine contemporary design with classic tailoring, giving men the freedom to express their individuality with confidence and elegance.

Himclothiers is more than a clothing brand—it is a lifestyle created for the modern gentleman who values quality, simplicity, and timeless style.

COLOUR USAGE GUIDELINES

To maintain a consistent and recognizable brand identity, the Himclothiers colour palette should always be applied according to the following guidelines:

Primary Brown (#6F4D38) should be the dominant brand colour, used for backgrounds, headings, logos, and key brand elements.

White (#FFFFFF) should be used to create contrast, improve readability, and provide a clean, premium appearance.

Accent colours should be used sparingly to support the primary palette and highlight secondary information without overpowering the brand.

Always maintain sufficient contrast between text and backgrounds to ensure accessibility and legibility.

Do not alter, tint, or apply gradients to the official brand colours.

Use only the approved colour values (HEX, RGB, and CMYK) to ensure consistency across both digital and print applications.
